

# [Press release: More detail on £1.5 billion package of support for Universal Credit](#)

More details of the £1.5 billion package of support for Universal Credit were set out today by David Gauke, the Secretary of State for Work and Pensions.

The measures announced include:

- local authorities being able to recoup over 80% of the money they spend on temporary accommodation directly from the Department for Work and Pensions (DWP) rather than from the claimant, preventing losses of more than £70 million over 2018/19
- extended partnership working with Citizen's Advice, to provide more face to face support to Universal Credit claimants

This follows the package of improvements for new claimants announced in yesterday's Autumn Budget, including:

- abolishing the 7 waiting day period to reduce the wait for payment from 6 weeks to 5 from February 2018
- extending the repayment of advances from 6 to 12 months, and allowing people to receive 100% of their payment upfront from January 2018 (people who make a claim in December can get a 50% advance, and then in January can ask for a top up to 100%)
- making it possible for people to apply for advances online from spring 2018, making it even easier for a claimant to access an advance if they need it
- paying an additional 2 weeks' of housing costs after the end of someone's Housing Benefit claim and into their Universal Credit claim from April 2018
- making it easier for claimants to continue having their housing costs paid directly to landlords once they are on Universal Credit

To allow these improvements to be made as quickly as possible, we will also be changing the rate of Universal Credit full service rollout for 3 months from February 2018 to 10 jobcentres a month, increasing to 41 in May 2018.

The [timetable](#) of the Universal Credit full service transition has been updated.

## [Press release: Minister for Africa Rory Stewart in Zimbabwe](#)

Minister for Africa Rory Stewart arrived in Harare on 23 November. He will hold meetings with a range of political leaders from various parties, business representatives, human rights groups, NGOs and civil society. He will also see some of the important development work being carried out here by UK.

### **Minister for Africa, Rory Stewart said:**

This is an absolutely critical moment in Zimbabwe's history.

Zimbabweans suffered for too long as a result of Mugabe's ruinous rule. The events of the last few days have given people here real hope that Zimbabwe can be set on a different, more democratic and more prosperous path.

What comes next must be driven by Zimbabweans – it must be in line with the Zimbabwean constitution and will be impossible without clear resolve from the incoming government. That is what my visit here is all about.

Britain wants to be a genuine partner for Zimbabweans as they forge a new future.

## [News story: DCMS launches £190m Gigabit broadband challenge fund](#)

Last year, the Chancellor announced more than £1bn of funding to stimulate further and faster roll-out of full fibre networks, alongside investment to take forward the next generation of mobile connectivity in all areas of the UK. As part of this, Government has now launched a £190m Local Full Fibre Network (LFFN) Challenge Fund to stimulate commercial investment in full fibre networks across the whole of the UK, including rural and urban locations, by demonstrating approaches that encourage additional private investment and by making sustainable commercial deployments viable.

Minister for Digital, Matt Hancock said:

World class connectivity is increasingly essential to people at work and at home. It's vital to ensure the UK's future competitiveness in the global market and our ability to attract investment. Full fibre is fundamental for fashioning a Britain fit for the future.

The projects will enable gigabit capable connections to key public buildings and businesses, with the expectation that this leads to broadband providers creating additional connections to local homes and businesses.

Government is now encouraging a broad range of local bodies – Local Authorities, Combined Authorities, Local Enterprise Partnerships as well other local public / government bodies such as health, education or transport bodies, to apply to the fund.

This programme comes as part of the government's expanded £31 billion National Productivity Investment Fund aimed at improving productivity, which is key to raising living standards. This fund has already earmarked £740 million specifically for improving Britain's digital infrastructure, ensuring the UK is match-fit for the future.

Further information, and details on how to apply for funding is available [online](#)

## **[Press release: Waste management company director disqualified for poor record keeping](#)**

Mr Cosgrove had a disqualification order made against him, with effect from 24 October 2017, on behalf of the Secretary of State for Business, Energy & Industrial Strategy, which prevents him from becoming directly or indirectly involved in the promotion, formation or management of a company for eight years.

Paul Cosgrove was the director of TBP & Son Ltd, a company trading as a provider of waste management services.

The company went into liquidation on 13 February 2015 owing £1,744,396 to creditors, of which £1,058,168 was owed to trade and expense creditors and £686,128 was owed to HM Revenue & Customs.

The unfit conduct that led to Mr Cosgrove receiving an order was that he failed to maintain, preserve or deliver up the books and records of the company which resulted in it not being possible to:

- determine the reason for company expenditure totaling £4.2 million
- explain what happened to assets totaling £5,242,845.
- determine the true level of VAT due to HMRC

Commenting on the disqualification, Martin Gitner, Deputy Head of Investigations with the Insolvency Service said:

Failure to deliver up the books and records of a company to the Liquidator which results in a loss to creditors and the public purse will be rigorously investigated by the Insolvency Service in liaison with HM Revenue & Customs.

Even where the director chooses not to engage with the investigation process, disqualification as a director is the likely outcome of such activity.

### **Notes to editors**

Paul Cosgrove, date of birth March 1980 and he resides in Newark, Nottinghamshire.

TBP & Son Ltd (CR0 No. 06896956) was incorporated on 6 May 2009. The company traded as a provider of waste management services. Mr Cosgrove was a director from 1 October 2013 to liquidation.

The Company went into Creditors Voluntary Liquidation on 13 February 2015 with an estimated deficiency of £1,744,397.

On 3 October 2017, a Disqualification Order was made against Mr Cosgrove on behalf of the Secretary of State, effective from 24 October 2017, for a period of 8 years .

The matters of unfitness, which Mr Cosgrove did not dispute, were that from 1 October 2013 to the date of liquidation on 13 February 2015, Paul Cosgrove failed to ensure that TBP & Son Limited (TBP) maintained and/or preserved adequate accounting records, or in the alternative he failed to deliver up to the Liquidator such records as were maintained. As a consequence it is not possible:

- to determine, in the absence of a complete purchase records, the reason for expenditure totalling £4,283,785 to a third party out of TBP's bank account during the period 01 October 2013 to 13 February 2015 and in particular, to verify that this was legitimate company expenditure
- to establish whether all of TBP's assets were disclosed in the statement of affairs and in particular to determine what, if any, stock and book debts were owned by the company at the date of liquidation, and the full and true value of any items transferred or otherwise disposed prior to liquidation, in that purchase invoices show that between 26 October 2013 and 2 December 2014, TBP purchased scrap metals for the sum of

£5,004,477 against corresponding sales invoices in the sum of £2,133,430, resulting in scrap metal with an invoice value of £2,871,047 being unaccounted for; and purchase invoices show that between 26 October 2013 and 2 December 2014, TBP purchased waste paper and plastics for the sum of £2,634,076 against corresponding sales invoices in the sum of £262,278 resulting in waste paper & plastics with an invoice value of £2,371,798 being unaccounted for

- for HM Revenue & Customs to determine the true level of TBP's liability in respect of Value Added Tax which resulted in HMRC raising officers assessments and surcharges against the company totalling £624,485 in respect of the period 1 April 2014 to 2 December 2014

A disqualification order has the effect that without specific permission of a court, a person with a disqualification cannot:

- act as a director of a company
- take part, directly or indirectly, in the promotion, formation or management of a company or limited liability partnership
- be a receiver of a company's property

Persons subject to a disqualification order are bound by a [range of other restrictions](#).

The Insolvency Service, an executive agency sponsored by the Department for Business, Energy and Industrial Strategy (BEIS), administers the insolvency regime, and aims to deliver and promote a range of investigation and enforcement activities both civil and criminal in nature, to support fair and open markets. We do this by effectively enforcing the statutory company and insolvency regimes, maintaining public confidence in those regimes and reducing the harm caused to victims of fraudulent activity and to the business community, including dealing with the disqualification of directors in corporate failures. Further information about the work of the Insolvency Service, and how to complain about financial misconduct, is [available](#).

BEIS' mission is to build a dynamic and competitive UK economy that works for all, in particular by creating the conditions for business success and promoting an open global economy. The Criminal Investigations and Prosecutions team contributes to this aim by taking action to deter fraud and to regulate the market. They investigate and prosecute a range of offences, primarily relating to personal or company insolvencies.

Further information about the work of the Insolvency Service, and how to complain about financial misconduct, is [available](#).

# [News story: New education programme to build on success of Tim Peake mission](#)

Following on from the huge success of Association for Science and Discovery Centre's (ASDC) Destination Space, which engaged over 730,000 children and adults with Tim Peake's mission to the International Space Station, the UK Space Agency is supporting ASDC to create new space resources and to work with five UK science centres and museums to deliver space activities in 2018.

Destination Space is a national STEM programme created and run by ASDC and funded by the UK Space Agency. The first phase of this national programme ran from 2014 to 2017 and engaged, inspired and involved families with school-age children, school groups and teachers, and communities across the UK with the amazing stories, science and achievements of human spaceflight and Tim Peake's Principia mission. Overall 733,017 children and adults took part in this ASDC programme in the first 15 months of delivery and many more continue to do so today.

This new six month programme builds on all this training, knowledge and enthusiasm for space science and exploration currently in science centres across the UK, and ensures delivery of this content continues well into the future. Specifically, this programme will focus on celebrating the science and engineering of the new James Webb Space Telescope (JWST) and the new Mars rover for the ExoMars mission, and will introduce satellite applications and the plans to enable space launches from the UK. It also will develop content more widely that can be used by multiple partners and ASDC in future projects around space science.

The programme will invite applications in January from the twenty Science and Discovery Centres and Museums around the UK that delivered Destination Space 1 – from Eden in Cornwall to the Scottish Science Centres, and from W5 in Belfast to the Science Museum in London. Five centres will be selected, and they will be trained in March to run this cutting-edge schools and families programme across 2018 and into the future.

This programme will be directed and managed by the UK Association for Science and Discovery Centres who have considerable experience managing national strategic multi-partner science engagement programmes. The activities and events will be delivered in collaboration with science centres with expertise in engaging the public with space science, along with specialist expertise from researchers and UK Space Agency partners. This exciting new programme runs from 16 October 2017 until 31 March 2018.
