

[Press release: New hate crime package to target groups at need](#)

Ahead of Holocaust Memorial Day 2017, Communities Secretary Sajid Javid has today (26 January 2017) announced £375,000 of new funding to further encourage the reporting and prevention of hate crime.

The new package will be targeted at a range of existing organisations, working with faith and minority communities that have historically faced challenges in reporting hate crime. These include race and faith groups and those working at challenging the prejudice towards people from alternative subcultures.

The extra support will build upon the wide reaching work the government is already doing to reduce hate crime, increase reporting and improve support for victims. It builds on the £1 million of support directed at young people announced as part of the government's [Hate Crime Action Plan](#) last summer.

Mr Javid will announce the new funding in a speech at The Anne Frank Trust Annual Lunch to mark Holocaust Memorial Day in London today, before hosting the UK Commemorative Ceremony for Holocaust Memorial Day.

Communities Secretary Sajid Javid said:

Holocaust Memorial Day is a stark and important reminder of what can happen when hate and intolerance spirals out of control and specific groups are targeted simply because they are different.

These funds build upon what government is already doing through the [Hate Crime Action Plan](#) to challenge the misperceptions that lead to hate crime and support victims from marginalised communities to stand up and report incidents.

Let me be clear. Hate crime has no place whatsoever in British society. We will not stand for it. All communities must be able to live their lives free from fear of verbal or physical attack.

Minister for Faith and Integration Lord Bourne said:

This new funding will support communities most at risk that may find reporting and preventing hate crime challenging for a variety of cultural and historical reasons.

Every community in Britain should feel confident in standing up to the perpetrators of hate crime and make it clear that hate and intolerance is entirely unacceptable.

Groups receiving funding

The package will provide funding to the following organisations:

- [Sophie Lancaster Foundation](#): a charity set up following the murder of 20 year-old Sophie Lancaster in Lancashire in 2007 that seeks to challenge the prejudice and intolerance towards people from alternative subcultures; Sophie's mother, Sylvia, visits schools around the country to instill tolerance in young people through education
- [True Vision](#): the police reporting portal for hate crime. New funding will help encourage groups that face challenges in reporting hate crime including Sikh and Hindu communities and recent arrivals from Eastern Europe; True Vision will also work with National Churchwatch, an organisation which works to counter hate crime against the Christian community
- [The Traveller Movement](#): a charity that aims to improve reporting rates for hate crimes against the Gypsy, Roma and Traveller communities
- [Show Racism the Red Card](#): a campaign to unite young people of different backgrounds using professional footballers and their clubs to educate against racism

Additional funding will go to National Hate Crime Awareness Week that takes place each October to develop the scope and depth of the programme and to encourage collaboration between anti-hate crime charities across the country.

We already have one of the strongest legislative frameworks in the world to tackle hate crime. The [Hate Crime Action Plan](#) published last year includes new actions and support to ensure the legislation is used effectively to support victims and deal with perpetrators. See the [Hate Crime Action Plan](#) for more information.

The Holocaust Memorial Day Trust is a charity established by the government to promote and support Holocaust Memorial Day (27 January) in the UK. See the [Holocaust Memorial Day Trust website](#) for more information.

[The Anne Frank Trust UK](#) is an education charity that uses Anne Frank's life and diary to empower young people with the knowledge, skills and confidence to challenge all forms of prejudice and discrimination. The charity was recognised by the EHRC recently as a highly effective organisation in tackling prejudice-related behaviour amongst young people.

Press release: Defence industry called to tackle enduring challenges

Minister for Defence Procurement Harriett Baldwin launched the Innovation Initiative's £6m Accelerator Enduring Challenge today, seeking to fast-track the innovative ideas which will keep the UK and its Armed Forces safe and secure.

Cutting-edge ideas like the life-saving device being developed by the University of Strathclyde to minimise blood loss in severely injured personnel; and 2iC's state-of-the-art work on secure data exchange between soldiers, vehicles, and bases and between coalition partners and allies. The MOD's investment in such innovative solutions demonstrates how the government is ensuring our Armed Forces have the most effective and innovative capability available.

The £6m Enduring Challenge is run by the MOD's new Defence and Security Accelerator and will fast-track the best ideas by funding their development, matching suppliers with expert Innovation Partners, and boosting supplier access to defence. The competition will run regularly, with up to 12 rounds a year.

Opening the competition in London, Minister for Defence Procurement, Harriett Baldwin, said:

The Accelerator Enduring Challenge is another important step in our Innovation Initiative's aim to transform defence. Backed by a rising defence budget and our £800m Innovation Fund, the Innovation Initiative is transforming Defence's creative culture.

We are challenging academics and businesses of all kinds to innovate, cooperate, and build mutual security and prosperity as the UK develops its ambitious Industrial Strategy to ensure an economy that works for everyone.

The launch event in London brought together researchers, entrepreneurs, innovation centres, small and medium-sized enterprises, the defence industry and international allies to build the collaborative approach which will deliver cutting-edge defence technology.

The Accelerator Enduring Challenge builds on the previous Centre for Defence Enterprise (CDE) Enduring competition by increasing funding and access to government. £6m will be available for the first year of the Enduring Challenge, which includes a second phase of new funding. The first phase will look at ideas in their early stages, while the second phase will nurture promising projects, as well as offering an alternative route for more advanced ideas and technologies.

Acting Head of the Accelerator, Rob Solly, said:

Through the Enduring Challenge we are hoping to reach out to a wide supply base, which can provide us with innovative ideas that challenge our ways of thinking and operating. We will then work with selected suppliers to support them in their development towards market delivery.

The first competition of the Accelerator Enduring Challenge is now open, with a deadline of 5 April 2017 to submit proposals. The competition will then operate on a regular basis with up to 12 rounds per year.

More information is available on the [Accelerator's website](#).

Richard Calvocoressi

Richard Calvocoressi is a Director and Senior Curator of the Gagosian Gallery in London. He was formerly Director of the Henry Moore Foundation (2007-15). From 1987 to 2007 he was Keeper, then Director, of the Scottish National Gallery of Modern Art in Edinburgh. From 1979 to 1987 he was a curator at the Tate Gallery, where he was responsible for building up the collections of pre- and postwar European art. He also organised major exhibitions of Jean Tinguely (1982) and Oskar Kokoschka (1986). In Scotland, he acquired important international collections of dada and surrealist art from the estates of Roland Penrose and Gabrielle Keiller and was instrumental in attracting the Anthony d'Offay gift (Artist Rooms) to Edinburgh and London. Richard Calvocoressi has published on various modern and contemporary artists, including Michael Andrews, Francis Bacon, Georg Baselitz, Reg Butler, Lucian Freud, Anselm Kiefer, Yves Klein, Paul Klee, René Magritte, Lee Miller and Henry Moore. He is an Expert Member of the Comité Magritte and a Trustee of the Art Fund. In 2008, he was awarded a CBE for services to the arts, particularly in Scotland. His term will end on the 12th of November 2020.

Leslie Webster

Former Keeper of the Department of Prehistory and Europe, and senior curator

of the early medieval collections at the British Museum, she specialises particularly in the Anglo-Saxon and Viking period, on which she publishes and lectures widely. Her latest book is Anglo-Saxon Art: a new History (2012). She is currently Honorary Visiting Professor at the Institute of Archaeology, UCL. She co-curated four major exhibitions on early medieval themes at the British Museum, and also co-ordinated a series of exhibitions in five major European museums, as part of the European Science Foundation's Transformation of the Roman World AD 400-900 Project. She has served as a Trustee and committee member on many professional bodies, including the Society of Antiquaries of London, the Royal Archaeological Institute, and the Society for Medieval Archaeology, where she served as President from 2007-10. Other advisory work has included membership of the former English Heritage Museums and Archives Advisory Panel, the British Academy Corpus of Anglo-Saxon Stone Sculpture Committee, and the National Heritage Memorial Fund Advisory Panel. She is actively engaged in the Staffordshire Hoard Research Project, and is co-editor of the forthcoming publication of this major Anglo-Saxon find. Her term will end on the 17th of February 2020.

Appointments to The RCEWA are made by the Secretary of State. Roles are unremunerated.

This reappointment has been made in accordance with the Code of Practice of the Commissioner for Public Appointments. All appointments are made on merit and political activity plays no part in the selection process. However, in accordance with the original Nolan recommendations, there is a requirement for defined political activity in the last five years to be made public. Neither Richard or Leslie have declared any such political activity.

[News story: New talent joins British Transport Police Authority Board](#)

New appointments to the body that oversees the specialist rail police force in Britain.

The body that oversees the specialist rail police force in Britain is to be further strengthened by the appointment of a new deputy chair and 5 new board members, the Department for Transport has announced.

Mark Phillips, who has been a board member of the British Transport Police Authority since 2013, has been appointed as the new deputy chair. He is also currently Chief Executive Officer at the Rail Safety and Standards Board and has previously worked at Network Rail as Regional Director for Anglia and as Deputy Managing Director for the Greater Anglia franchise.

In addition experienced businessman William Gallagher, chartered accountant Shrinivas Honap, experienced strategist Jeremy Mayhew, retired chief constable Martin Richards and human resources expert Beverley Shears have been appointed as new members of the BTPA Board.

Transport Secretary Chris Grayling said:

We are delivering the biggest rail modernisation programme for more than a century to improve services and provide passengers with faster and more comfortable trains. British Transport Police will play a major role in delivering our vision for a growing and sustainable railway. I am confident the newly-refreshed team will provide the strategic direction the force needs to offer even better value to the rail industry and the taxpayer while fighting crime, reducing disruption and keeping the network safe for passengers and rail staff alike.

The new deputy chair took up his role in November 2016 and the new members will be taking up their roles in January 2017.

[News story: UK Space Agency funds satellite solutions for developing countries](#)

The UK Space Agency's International Partnership Programme (IPP), is a five-year, £152 million programme designed to partner UK space expertise with governments and organisations in emerging and developing economies around the world to deliver a sustainable, economic or societal benefit. Satellite data will be used to tackle problems such as flooding, drought, and deforestation.

The 21 chosen projects help provide solutions for local issues in countries across Africa, Asia and Central and South America. They include providing communications in remote areas for education and health provision, improving maritime safety for small fishing vessels in South Africa and Madagascar and reducing illegal logging in Guatemala.

The IPP focuses on using the UK Space sector's research and innovation

strengths to deliver practical and measurable effects to end-users in developing countries. As GCRF forms part of the UK's Official Development Assistance (ODA) ring-fenced budget, the new IPP programme is fully ODA compliant.

Funded from the Department for Business, Energy and Industrial Strategy's Global Challenges Research Fund (GCRF), the IPP forms part of the UK's Official Development Assistance (ODA) ring-fenced budget. The projects underwent a rigorous selection process to ensure that they met strict requirements for ODA and UN sustainability goals. The UK Space Agency partly funds IPP projects with a proportion of the cost shared by the programme applicants to ensure cost effectiveness and value for money.

View the whole list of IPP funded [case studies](#).

The IPP will make a second call for applications later this year, with an opportunity for new projects to secure funding.

Case study: Ecometrica, Edinburgh

Forests2020

Grant: £14.3 million Target country: Indonesia, Brazil, Mexico, Colombia, Ghana and Kenya

This project addresses critical gaps in current forest monitoring systems by providing a sustained and effective forest monitoring system capable of measuring forest change and providing information on the risks and drivers of forest loss. The project focusses on Indonesia, Brazil, Mexico, Colombia, Ghana and Kenya. It will use publically available Earth Observation optical data and commercial LIDAR/radar products as well as set up in-country capacity building EO monitoring stations.

Case study: exactEarth Europe Ltd (eEE) Harwell, Oxfordshire

South Africa Safety Initiative for Small vessels Operational Take-Up (OASIS-TU)

Grant: £1.1 million Target country: South Africa, Madagascar Following on from their IPSP project, this project will install 1,500 transponders across the most at-risk artisanal fishing boats in South Africa. exactEarth will use their constellation of 'Automatic Identification System' monitoring satellites to track these boats in partnership with the South African Maritime Safety Authority; and this will ensure a more effective rescue approach for the small boats and reduce the current high loss of life in this sector.
