

Road accidents in India decrease by 4.1% during 2016, fatalities rise by 3.2%

Road accidents in the country have decreased by around 4.1% during 2016, with the year seeing 4,80,652 road accidents as against 5,01,423 in 2015. However fatalities resulting from these accidents have risen by about 3.2% during the same period. Nearly 1,50,785 persons were killed in 2016 as against 1,46,133 in 2015. Releasing the Ministry's annual publication 'Road Accidents in India-2016' the Minister for Road Transport and Highways, Shipping, Water Resources, River Development and Ganga Rejuvenation Shri Nitin Gadkari said that while the accident and fatality figures still leave a lot to be desired in the matter of ensuring road safety, the trends are encouraging. Road Accidents in India, 2016 is a compilation of data on various facets of road accidents as furnished by Police Departments of all States/U.Ts for the calendar year 2016
