

establishment of burial chamber and memorial housings and modular cell constructed mausolea facilities across the UK. These facilities are now a common service provision and no longer thought of as novel and are a testament to the hard work and visionary creativity of Keith Welters and his dedicated support staff.

## Unmistakably welters

WOW **Cemetery Villages** are typically based around their **Memorial Housing and Mausolea Interment Systems**, which are both designs exclusive to **welters**<sup>®</sup>. This range of systems has been manufactured by the company for over twenty years and is installed in cemeteries and crematoria nationwide. The style is instantly recognisable as '**brand welters**<sup>®</sup>' and when combined with other WOW architectural components provides the cornerstone trademark look of a classic **welters**<sup>®</sup> **Cemetery Village**<sup>®</sup> scheme.

## [Landscape Orbs](#)

As part of welters® commitment to achieving zero waste working practices, all by-product materials produced in cast stone manufacturing is now being utilised as a structural landscape commodity.

Example visual of Landscape Orbs used for bank stabilisation

The Landscape Orbs are created using irregular spheroid formations of cast stone, which are cured into solid forms. These are perfect for uses such as bank stabilisation, erosion protection or as naturalised stone features in their own right.
