

Lords pass Brexit Bill unanimously

Parliament has now spoken. A large majority for Brexit in the Commons is now matched by a unanimous vote in the Lords.

The Supreme Court has succeeded in delaying the letter but not in stopping it. As I thought at the time of the discussions on the Supreme Court decision it is the view of Parliament we should send the letter. If it had not been Parliament would have said so and voted accordingly prior to the Court decision.

I expect the Lords to approve the Bill at third reading in a similar way. It would be odd indeed if they changed their minds after yesterday's important vote.

Global Crude oil price of Indian Basket was US\$ 55.37 per bbl on 21.02.2017

Tank adapted into snow blower in N. China

A tank-shaped snow blower on the streets of Baotou in northern China has really “blown” people away and quickly gone viral.

By adapting a jet plane engine to the tank, it can produce high heat to efficiently blow away snow at great distances. [Photo: youth.cn]

The armored fighting vehicle, which features an aircraft engine, came in handy when an unexpected spring snow hit the city today, and proven to be quite efficient in dealing with snow.

Called a turbojet snow blower, the machine was invented by the Inner Mongolia First Machinery Group, an affiliation of China North Industries Group Corporation (NORINCO GROUP).

By adapting a jet plane engine to the tank, it can produce high heat to efficiently blow away snow at great distances, according to an introduction

of the machine.

The machine can achieve an average speed of 20 to 30 kilometers per hour, and a maximum speed at 50 kilometers per hour.

“It’s really awesome to see an armored vehicle being used to remove the snow,” said an internet user. “It’s a little bit noisy but proves to be very efficient.”
