

[India Post Payments Bank will be a game changer for financial inclusion- Manoj Sinha](#)

Finance Minister, Shri Arun Jaitley and Minister of Communications Shri Manoj Sinha launched the operations of the India Post Payments Bank (IPPB) here today as two pilot branches at Raipur and Ranchi through video conferencing from Delhi.

[News story: Chief Secretary welcomes an investment of more than £100 million creating 100 jobs in Oxford medical research](#)

David Gauke, Chief Secretary to the Treasury, was in Oxford today (30 January 2017) to welcome global healthcare company Novo Nordisk's announcement of an investment of more than £100 million in the city, creating 100 skilled jobs in diabetic drug discovery in a new research centre.

Laboratory facilities are being created in a new state-of-the-art Oxford University building, which has received £12 million of government funding. Two floors of the building will be occupied by Novo Nordisk and two floors by start-up companies created from ongoing Oxford University research.

Novo Nordisk's research will help discover new ways of treating type 2 diabetes, one of the world's biggest public health issues.

The Chief Secretary earlier hosted a round table with senior representatives of Oxford technology companies, covering sectors including autonomous vehicles, biotechnology and reforestation. They discussed government support, including the Industrial Strategy, as well as opportunities and challenges for the future.

Chief Secretary to the Treasury, David Gauke said:

I welcome Novo Nordisk's investment at Oxford University, which is a vote of confidence in the UK's position as a world-leader in science and research.

A thriving science and technology sector is key to supporting economic growth, and the government has committed to support further research and innovation in all sectors with an additional £4.7 billion R&D spending by 2020-21.

We are also listening to our industries about their challenges and ambitions. That's why I sat down today with representatives from some of Britain's outstanding technology companies based in Oxford.

The UK's strengths in science, research and innovation are a major focus of the [government's industrial strategy](#).

The government has announced a range of support for science and technology, including:

- an additional £4.7 billion by 2020-21 of R&D spending – the largest increase by any government since 1979
- this is in addition to existing commitments from the spending review to protect science resource funding in real terms over the parliament and spend £6.9 billion on capital infrastructure between 2015-2021 *a new Industrial Strategy Challenge Fund, to support business-university collaboration

Meeting attendees:

- Ryan Cawood, CEO Oxford Genetics
- Dr Gordon Sanghera, CEO Nanopore Technologies
- Mike Clary, CEO Bodle Technologies
- Eliot Forster, CEO Immunocore
- Professor Andrew Harrison, CEO Diamond Light Source
- Dr Graeme Smith, CEO Oxbotica

[PM urges all political parties to enable smooth Budget Session of Parliament](#)

Addressing floor leaders of parties in the Rajya Sabha and Lok Sabha here today, ahead of Budget Session of Parliament beginning tomorrow, Prime Minister Shri Narendra Modi noted that in order to preserve and enrich the institution of Democracy in India, it is imperative that both the Houses of the Parliament run without disruption and constructive discussion takes place on issues of national importance.

Warning against spurious schemes being floated in the name of Beti Bachao Beti Padhao

It has come to the notice of Ministry of Women & Child Development, Government of India that certain unauthorised sites/organisations/NGOs/individuals are distributing forms in the name of cash incentive under Beti Bachao Beti Padhao Scheme.

Press release: Man given suspended jail term over illegal Wakefield waste site

A Dewsbury man has been handed a 26-week prison sentence, suspended for 12 months, for illegally dumping waste on disused land in Horbury, Wakefield.

Samuel Joseph Stringer Hunter, 25, of Boothroyd Lane, Dewsbury, was sentenced by Kirklees Magistrates' Court on 27 January following an Environment Agency investigation.

Hunter had denied two environmental offences but was found guilty after a trial.

Lorna Matchett, prosecuting for the Environment Agency, told the court that investigating officers discovered the illegal activities in July 2014.

Hunter had been storing waste on land near Bridge Road, near the River Calder behind the Horbury Bridge Industrial Estate, although no environmental permits were in place for the operation.

There were several piles of mixed waste containing treated and untreated wood waste and plastics, and skips belonging to the Hunter Group or Huddersfield Skip Services, both of which Hunter was involved with at the time.

The defendant claimed that these waste activities were allowed because they were covered by waste permitting exemptions. But the Environment Agency said the waste was being stored in breach of the exemptions: there was too much waste, it was of a type not compliant with the exemptions and it was stored for too long.

Hunter was told to clear the waste from the site, but inspections between October 2014 and January 2015 revealed that much of it remained. There were also signs that waste had been deposited into the ground, which was contaminated with plastic, glass, a trainer and mixed construction and demolition waste.

The court heard that through running the site illegally, Hunter avoided £4,120 in permitting fees and £5,148 by not installing the correct surfacing to prevent pollution to the ground. It is estimated that Hunter received between £6,400 and £18,720 for the waste he brought onto the site.

In sentencing, the chair of the bench said:

These offences were so serious that custody was the only option.

A spokesperson for the Environment Agency said after the hearing:

Environmental permitting regulations exist to protect the environment and local communities from the risk of harm. Hunter's activities on this site posed a pollution risk and a fire risk that could have affected the nearby railway line. Hunter also undercut legitimate businesses by avoiding mandatory permitting and infrastructure costs.

We hope this case demonstrates the importance of environmental compliance. Anyone who breaks the rules will be pursued. Anyone who believes waste is being dumped illegally is urged to report the matter to our incident hotline on 0800 807060 so we can investigate.

Prior to sentencing, Hunter told the court in mitigation that he had cleaned up the waste in the shortest possible time.

In addition to the suspended jail term, he was ordered to undertake a rehabilitation activity of 15 days under supervision, and to carry out 300 hours of unpaid work within the next 12 months. Hunter must also pay legal costs of £4,640 and a victim surcharge of £150.
