

Temporary traffic and transport arrangements for preparation works of car racing event in Central

The Transport Department today (March 4) reminded the public that to facilitate preparation work for a car racing event in Central, temporary road closures and traffic diversions for all vehicular traffic have been implemented on sections of Lung Wo Road, Man Yiu Street, Man Kwong Street, Yiu Sing Street, Man Po Street and Man Cheung Street of the Central Waterfront until 1.15am on March 9 (Saturday).

Traffic in the Central district is expected to be busier than usual. Motorists are advised to avoid driving to above areas unless necessary. In case of traffic congestion, motorists should exercise tolerance and patience, and follow the road signs.

Members of the public are advised to plan their journey well in advance, use public transport services as far as possible and allow ample time for travelling.

Relevant traffic and transport arrangements on the event dates and road restoration work afterwards will be announced later.

Details of the special traffic and transport arrangements are now available on the department's website (www.td.gov.hk).
