

The Israel/Palestine crisis

I am receiving around 15 emails day from the two sides in the conflict seeking U.K. support for their respective positions.

The U.K. is working with the USA and the UN to favour a diplomatic solution where Hamas stops its rocket attacks on Israel and Israel stops her military attacks on Hamas. Both sides would then show a willingness to enter talks under independent chairmanship to try to sort out answers to the many outstanding disagreements. The UK regrets all loss of life in this conflict which is why it supports a ceasefire and talks.
