

The Post Office counters closure in Wokingham

I have talked to the Labour party campaigners collecting signatures in town today to object to the closure of the counters in the current building. They tell me they have now seen a letter saying the Consultation will only be about the facilities in Smiths, and not about the principle of the closure and switch , which was not made clear to me when I contacted them. I will therefore write to the Post Office setting out public objections to the closure and asking them to think again.
