

# The Special Imports System will be unavailable 20 and 21 June 2020

News story

The Special Imports System will be unavailable on the weekend of 20 and 21 June 2020 due to essential IT maintenance .

Veterinary Surgeons should obtain an import certificate in advance if you think you will need to import/use an imported medicine during this period.

In urgent cases where the VMD have previously issued a certificate, you may purchase and use an imported veterinary medicine prior to obtaining a certificate from the VMD. This is a special dispensation which only applies to the VMD online system during this maintenance period.

You should obtain an import certificate retrospectively as soon as possible.
