

# Those who relaunch Project Fear aim to damage our country

Only if the EU believes we are leaving on October 31 without signing the Withdrawal Agreement do we have a reasonable chance of leaving tariff free.

The new PM needs to tell the EU we are leaving, but we would be happy to negotiate a Free Trade Agreement after departure allowing the EU continued access to us tariff free and for us to them. All they need to do is agree talks.

The peddlers of false Project Fear forecasts clearly want to stop us getting such an agreement.
