

Transcript of remarks by S for S

Following is the transcript of remarks by the Secretary for Security, Mr John Lee, at a media session before attending the meeting of the Legislative Council this morning (April 22):

Reporter: Secretary, do you feel relief that you are not included this time for replacement in the cabinet reshuffle? How do you respond to calls against you being the person to be held accountable for the extradition bill saga?

Secretary for Security: I will not comment on news reports of this nature. But I am the official who proposed the amendments to the Fugitive Offenders Ordinance and I have previously said a lot of things about the whole process. I will make no further comment.
