

# Turkey: Statement by the Spokesperson on the death of Ebru Tımtı

The European Union is deeply saddened by the death of Ebru Tımtık, a lawyer who has been on hunger strike for 238 days following her conviction last year for alleged membership of a terrorist organisation. She is the fourth prisoner to die this year as the result of a hunger strike, following the deaths of Helin Bölek and İbrahim Gökçek, two musicians from the Grup Yorum band, and Mustafa Koçak. We offer our condolences to their families.

The tragic outcome of their fight for a fair trial painfully illustrates the urgent need for the Turkish authorities to credibly address the human rights situation in the country, which has severely deteriorated in recent years, as well as serious shortcomings observed in the judiciary.

Turkey urgently needs to demonstrate concrete progress on the rule of law and fundamental freedoms.
