Great news that last year UK trade surged and inward investment reached a new record. The BBC and the Remain campaigners push out errant forecasts and strange models to suggest post Brexit the UK will do badly, ignoring the reality of trade and overseas investment rising. Why do they always want to run the UK down? Why do they play down the significance of so much investment coming from outside the EU despite their dogma that our trade and prosperity depend on the EU? The USA is by far and away our biggest export market and we are doing well there. Services are particularly strong. Now we are out of the EU we are negotiating trade deals like the TPP one which include services, something the EU did not include in most of their deals.
