

# News story: South West Water fail to report dead fish after polluting Devon stream

South West Water has been ordered to pay £89,000 in fines and costs for polluting a stream in Woodbury near Exeter. The case was brought by the Environment Agency.

A court heard how large numbers of fish died following the incident at Ham Lane Combined Sewer Overflow (CSO) in September 2014 following an illegal discharge. CSOs are allowed to discharge during storm conditions to prevent the internal flooding of properties. They are not permitted to operate during periods of dry weather.

The spill was caused by a blockage that resulted in effluent being discharged into a nearby stream over one to two days. The pollution adversely affected water quality in the stream and killed more than 150 fish.

The water company must report any fish kills that occur following a pollution incident. It failed to report this important information to the Environment Agency.

Instead, a witness alerted the Environment Agency to the seriousness of the incident after seeing South West Water staff collect and remove dead fish from below the CSO discharge pipe over several days as part of its remediation work on the stream.

The discharge occurred during a period of dry weather. The dead fish included minnows, stone loach, bullhead and eels.

Pete Ball of the Environment Agency said:

It is important water companies regularly inspect and maintain their structures and assets such as CSOs to ensure they are operating in accordance with their permit and do not cause pollution.

While South West Water responded quickly to this incident, it failed to report the extent of the environmental impact of this spill, especially the fish deaths.

Appearing before Exeter Crown Court, South West Water Ltd was fined £70,000 and ordered to pay £19,023 costs after pleading guilty to breaching its environmental permit at Ham Lane Combined Sewer Overflow (CSO), Woodbury on or around 27 September 2014.

## **Press release: Foreign Secretary statement on plans for a new settlement in the West Bank**

The UK strongly condemns the Israeli government's decision to found a new settlement deep in the West Bank; the first such government decision for over 25 years. I am also disappointed that Israel plans to expropriate additional West Bank territory as 'state land', and press forward with plans for almost 2,000 housing units in spite of significant international concern.

These announcements are contrary to international law and seriously undermine the prospects of two states for two peoples. As a strong friend of Israel, and one prepared to stand up for Israel when it faces bias and unreasonable criticism, I urge Israel not to take steps such as these, which move us away from our shared goal of peace and security and make it harder to achieve a different relationship between Israel and the Arab world.

## **Safety at roadworks**

Highways England is working with the industry and road users to reduce the risks of working on the roads. For the safety of road workers and all road users, when you are approaching roadworks:

- keep within the speed limit – it is there for your safety
- get into the correct lane in good time – don't keep switching
- concentrate on the road ahead, not the roadworks
- be alert for works' traffic leaving or entering roadworks
- keep a safe distance – there could be queues in front
- observe all signs – they are there to help you
- be alert for road workers, the roads are their workplace
