

[Press release: Planned roadworks in and around the M25: weekly summary for Monday 6 February to Sunday 12 February 2017](#)

The following summary of planned new and ongoing road improvements over the coming week is correct as of 03 February 2017 but could be subject to change due to weather conditions or unforeseen circumstances. All our improvement work is carried out with the aim of causing as little disruption as possible.

M3 junctions 2 (M25) to 4a Farnborough, Hampshire: smart motorway improvement

Work to reduce congestion and improve journey times continues this week with narrow lanes a 50mph speed limit in place on both carriageways between junctions 2 and 4a, with a free recovery service operating 24 hours a day. The northbound carriageway between junctions 3 and 2 will be closed overnight, between 8pm and 5.30am, from Monday 6 February for 5 nights. Work on Saturday morning will finish at 7am. A clearly signed diversion will be in place via the A322 and A30, M25 junction 13 and M25 junction 12.

The southbound carriageway between junctions 2 and 3 will be closed overnight, between 8pm and 5.30am, from Monday 6 February for 5 nights. Work on Saturday morning will finish at 7am. A clearly signed diversion will be in place via M25 junction 13, A30, A322 to M3 junction 3.

The carriageway in both directions between junctions 4 and 4a will be closed overnight, between 8pm and 5.30am, from Monday 6 February for 5 nights. Work on Saturday morning will finish at 7am. A clearly signed diversion will be in place via the A331, A30, and A327 to M3 junction 4a and vice versa.

M3 junction 2 (M25), Surrey: smart motorway improvement

Work to improve journeys by carrying out smart motorway improvement continues this week. The dedicated link road from the M3 southbound to the M25 clockwise will be closed overnight, between 8pm and 5.30am, from Tuesday 7 February for 4 nights. Work on Saturday morning will finish at 7am. A clearly signed diversion will be in place via the M25 anti-clockwise to junction 11 and return.

M25 junction 14 Stanwell Moor, Surrey: vegetation

maintenance

Work to maintain safety by carrying out vegetation maintenance will start this week. The clockwise exit and entry slip roads will be closed overnight, between 10pm and 5am, from Monday 6 February for 4 nights. A clearly signed diversion will be in place for the exit slip road via M25 junction 15, M4 eastbound to junction 4 and return. A clearly signed diversion will be in place for the entry slip road via junction 13 and return.

M25 Heathrow Terminal 5, Greater London: vegetation maintenance

Work to maintain safety by carrying out vegetation maintenance will start this week. The dedicated link road from Heathrow Airport Terminal 5 to the M25 clockwise will be closed overnight, between 10pm and 5am, from Monday 6 February for 4 nights. A clearly signed diversion will be in place via M25 junction 13 and return.

M25 junction 15 (M4), Greater London: drainage survey

Work to maintain safety by carrying out drainage surveys will start this week. The dedicated link road from the M25 clockwise to the M4 westbound will be closed overnight, between 10pm and 5am, from Tuesday 7 February for 4 nights. A clearly signed diversion will be in place via the M4 eastbound to junction 4 and return.

M25 junction 19 (A41), Hertfordshire: drainage repair

Work to maintain safety by carrying out drainage repairs continues this week. The clockwise exit slip road will be closed overnight, between 10pm and 5.30am, from Monday 6 February for 5 nights. Work on Friday will start at 11pm. A clearly signed diversion will be in place via junction 20 and the A41.

M25 junction 22 London Colney, Hertfordshire: electrical repair

Work to maintain safety by carrying out electrical repairs continues this week. The clockwise exit slip road will be closed overnight, between 10pm and 5am, on Tuesday 7 February. A clearly signed diversion will be in place via junction 23 and return.

M25 junction 25 Enfield, Greater London: electrical

repair

Work to maintain safety by carrying out electrical repairs will start this week. The clockwise entry slip road will be closed overnight, between 10pm and 5am, on Thursday 9 January. A clearly signed diversion will be in place via junction 24 and return.

M25 junction 30 Thurrock, Essex: resurfacing

Work to improve journeys by carrying out resurfacing continues this week. The clockwise exit slip road will be closed overnight, between 10pm and 5.30am, from Monday 6 February for 5 nights. Work on Friday will start at 11pm. A clearly signed diversion will be in place for the A13 eastbound via the newly constructed dedicated link road from the M25 clockwise to the A13 eastbound.

A clearly signed diversion will be in place for the A13 westbound via the newly constructed dedicated link road from the M25 clockwise to the A13 eastbound, to the A126 and return.

The anti-clockwise exit slip road will be closed overnight, between 10pm and 5.30am, from Monday 6 February for 5 nights. Work on Friday will start at 11pm. A clearly signed pre-diversion will be in place for the A13 via M25 junction 31 and the A1306 to the Wennington Interchange.

M25 junctions 31 Lakeside to 30 Thurrock, Essex: major improvement

Work to improve journeys by carrying out resurfacing continues this week. The northbound link road between junctions 31 and will be closed overnight, between 10pm and 5.30am, from Monday 6 February for 5 nights. Work on Friday will start at 11pm. A clearly signed diversion will be in place for the M25 anti-clockwise will be in place via the junction 31 roundabout, A1306, A13 eastbound and the newly constructed dedicated link road from the A13 eastbound to the M25 anti-clockwise. A clearly signed diversion will be in place for the A13 via M25 junction 31, A1306 and the A13.

M25 junction 12 (M3), Surrey: smart motorway improvement

Work to improve journeys by carrying out smart motorway improvement continues this week. The dedicated link roads from the M25 clockwise to the M3 in both directions will be closed overnight, between 8pm and 5.30am, on Monday 6 February. A clearly signed diversion will be in place for the M3 southbound via junction 13, A30 and the A322 to M3 junction 3. A clearly signed diversion will be in place for the M3 northbound via M25 junction 13 and return.

The dedicated link road from the M25 in both directions to the M3 southbound will be closed overnight, between 8pm and 5.30am, from Monday 6 February for

5 nights. Work on Saturday morning will finish at 7am. A clearly signed diversion from the M25 clockwise will be in place via M25 junction 13, A30 and the A322 to M3 junction 3. A clearly signed pre-diversion from the M25 anti-clockwise will be in place via junction 13, A30 and the A322 to M3 junction 3.

M40 junction 1a (M25), Buckinghamshire: resurfacing

Work to improve journeys by carrying out resurfacing will start this week. The dedicated link road from the M40 eastbound to the M25 in both directions will be closed overnight, between 10pm and 5am, on Tuesday 7 February. A clearly signed diversion will be in place via M40 junction 1 and return.

A1(M) junctions 4 Hatfield North and 2 Welham Green, Hertfordshire: tunnel maintenance

Work to maintain safety by carrying out maintenance in the Hatfield Tunnel will start this week. The A1(M) southbound between junctions 4 and 2 will be closed overnight, between 10pm and 5am, on Wednesday 8 February and on Friday 10 February. A clearly signed diversion will be in place via the A1001.

A1(M) junctions 3 Hatfield South and 4 Hatfield North, Hertfordshire: tunnel maintenance

Work to maintain safety by carrying out maintenance in the Hatfield Tunnel will start this week. The A1(M) northbound between junctions 3 and 4 will be closed overnight, between 10pm and 5am, on Thursday 9 February and Saturday 11 February. A clearly signed diversion will be in place via the A1001.

A1(M) junction 6 Welwyn, Hertfordshire: resurfacing

Work to improve journeys by carrying out resurfacing will start this week. The northbound exit slip road will be closed overnight, between 11pm and 5am, on Friday 10 February. A clearly signed diversion will be in place via junction 7 and return.

A2 Dartford Heath, Kent: electrical repair

Work to maintain safety by carrying out electrical repairs continues this week. The eastbound entry slip road will be closed overnight, between 10pm and 5am, on Monday 6 February. A clearly signed diversion will be in place via the Black Prince interchange and return.

A13 (M25), Essex: resurfacing

Work to improve journeys by carrying out resurfacing will start this week. The A13 westbound exit slip road will be closed overnight, between 10pm and 5.30am, from Monday 6 February for 5 nights. Work on Friday will start at 11pm. A clearly signed diversion will be in place for the M25 clockwise via

the A13 westbound, A1306 and M25 junction 31 roundabout. A clearly signed diversion will be in place for the M25 anticlockwise via the A13 westbound to the A1306 and return on the A13 eastbound and the newly constructed dedicated link road from the A13 eastbound to the M25 anti-clockwise.

The A13 eastbound exit slip will be closed overnight, between 10pm and 5.30am, from Monday 6 February for 5 nights. Work on Friday will start at 11pm. A clearly signed diversion will be in place for the M25 anti-clockwise via the newly constructed dedicated link road from the A13 eastbound to the M25 anti-clockwise. A clearly signed diversion for the M25 clockwise will be in place via the newly constructed dedicated link road from the A13 eastbound to the M25 anti-clockwise, M25 junction 29 and return.

A21 Chipstead, Kent: electrical installation

Work to improve safety by carrying out electrical installation will start this week. The dedicated link road from the A21 northbound to the M25 clockwise at junction 5 will be closed overnight, between 10pm and 5.30am, from Wednesday 8 February for 5 consecutive nights. A clearly signed diversion will be in place via M25 junction 4 and return.

A282 (M25) Dartford – Thurrock Crossing: maintenance

Work to improve journeys at the Dartford Crossing continues this week. The following closures will be in place with fully signed diversions in place during the northbound east tunnel closures for oversized vehicles:

- Monday 6 February (9pm to 5.30am) northbound west tunnel
- Tuesday 7 February (9pm to 5.30am) northbound west tunnel
- Wednesday 8 February (9pm to 5.30am) northbound west tunnel
- Thursday 9 February (9pm to 5.30am) northbound west tunnel
- Friday 10 February (9pm to 5.30am) northbound east tunnel
- Saturday 11 February (9pm to 5.30am) northbound west tunnel
- Sunday 12 February (9pm to 5.30am) northbound west tunnel A282 junction 1a Swanscombe, Kent: tunnel maintenance

Work to maintain safety by carrying out tunnel maintenance continues this week. The northbound entry slip road will be closed overnight, between 9pm and 5.30am from Monday 6 February for 7 consecutive nights. A clearly signed diversion will be in place via the A282 southbound to junction 1b and return.

Speech: First Sea Lord speech on the Royal Navy in 2017

After 23 years as a member, 2 on the Committee and nearly 6 on the Navy Board, it's a pleasure to attend Founders Day as First Sea Lord and to share a few insights with you as I approach my first anniversary in the job.

Over the past year, I've had the privilege to represent the Royal Navy extensively at home and abroad.

Last spring, the nation paused to remember the centenary of the Battle of Jutland. I met many descendants, including the family of Jack Cornwell VC, at the unveiling of his memorial in Leyton. His great, great, nephew, AB Alex Saridis, is now serving in HMS Iron Duke, proof that our career managers have a sense of history.

Later, I was in Liverpool for the 75th Anniversary of the Arctic Convoys, where I met some remarkable veterans of "the worst journey in the world." I also had the honour of presenting the Lord Mayor of Liverpool with her late father's Arctic Star.

In both cases I was reminded of how deep the British public's affection for the Royal Navy runs.

Then, towards the end of the year, I was in Auckland for the 75th Anniversary of the Royal New Zealand Navy. Even though that nation has successfully forged its own distinct place in the world, the familial bonds between our two navies are no less strong.

But, without doubt, the best thing about the past year has been hearing about the accomplishments of our sailors and marines.

One that sticks in the mind was the father of new-born twins who, in spite of the sleepless nights, had been inspirational in leading his department to design and train force protection teams for HMS Queen Elizabeth.

Another was a marine engineering submariner who worked in excess of 100 hours a week to bring a 30-year old Trafalgar-class nuclear submarine out of maintenance and ready for sea ahead of schedule.

Then there was the young Leading Medical Assistant from HMS Enterprise who led the triage process for hundreds of rescued migrants, dealing with pregnancies, gunshot wounds and everything in between.

That particular mission is ongoing. HMS Echo was the only ship from the EU's Operation Sophia on duty over Christmas, in which time she pulled another 500 men, women and children from the Mediterranean.

We can be very proud of the compassion and professionalism of our sailors and marines in responding to what is possibly the largest humanitarian in our lifetimes.

But if you worry that our fighting instincts are in some way being softened, I would simply point you to the Gulf, where Commander Amphibious Task Group, Commodore Andrew Burns, and his staff are leading CTF-50, which plans and conducts coalition strike operations in a region where the threat level has the potential to escalate quickly.

They are embarked in HMS Ocean, currently our largest warship – but the men and women of our smaller vessels are no less mindful of the seriousness of their responsibilities.

In the face of almost daily provocation, the young ship's companies of the Gibraltar Squadron – led by Commanding Officers still in their twenties – are exhibiting judgement and restraint beyond their years and, in doing so, have revealed a bold and assertive style of ship handling in the very highest traditions of the service.

I have every expectation that there is a future Nelson or Cunningham among them.

Everything I have seen and heard since I become First Sea Lord has reaffirmed my faith that our nation is blessed with the best sailors and marines of any navy, supported by the Royal Fleet Auxiliary and a Civil Service that remains the envy of the world.

Of course, you would expect me to say this, and this audience knows it anyway – many of you helped lay the foundations upon which today's Navy rests. But now, more than ever, we must ensure the nation understands how hard our men and women are working on its behalf.

Three Theatres

As for the operational context, I do not intend to dwell too heavily, because it should be plainly apparent from the newspapers, not least those images of the Admiral Kuznetsov belching out black smoke like a dreadnought of yesteryear as she steamed past our shores.

In the Atlantic, our commitment to NATO continues to grow. In Norway, the Royal Marines have been training the US Marine Corps in cold weather warfare. Underwater, the Deterrent edges ever closer to a half-century of unbroken patrol, while our attack submarines have been very busy indeed, in ways that many of you know well, and the rest will have to imagine.

As for the Mediterranean, for many of us it was a place where we enjoyed the company of FOST as we worked up to go East of Suez. Now, sadly, it has become an operational theatre in its own right, as we respond to the concurrent challenges of Russians, Radicals and Refugees, to borrow a phrase from SACEUR.

We've been leaning heavily on the Royal Fleet Auxiliary and on our survey

ships and patrol vessels in this theatre, and they have stepped up to the plate in the most remarkable way.

HMS Mersey, for example, will shortly return from a 13 month deployment that began in the Caribbean and ended 38,000 miles later in the Aegean; an astonishing accomplishment for a vessel under 2000 tonnes and a ship's company of just 52.

I should also mention our reservists – rarely in the limelight – who have been serving on Border Force Cutters in the Aegean. If your memories of the RNR are of weekends team sweeping with the 10th MCM Squadron, that's ancient history now. They are serving right alongside their regular counterparts in almost everything we do.

Finally, the Foreign Secretary recently told the Manama Dialogue that "Britain is back East of Suez".

He's not wrong – but, in truth, the Gulf has been the Royal Navy's 'home from home' for the past thirty-five years, and today, at any one time, we have a minimum of 7 ships and 1100 sailors and marines in the region, plus two naval helicopter detachments.

Royal Marines are a big part of our presence in the wider Middle East, with training teams visiting Kenya, Somaliland and Kuwait to name just a few examples.

I could say more about all three theatres – and our other duties– but, suffice to say, the world is getting less certain and less safe, and demands on the Royal Navy are growing.

Perspective

This brings me to the crux of what I want to say tonight, which is about our challenges and opportunities.

The word I keep coming back to is perspective – perspective on the kind of Navy we are today, and perspective on the kind of Navy we can be in the years ahead.

You will be familiar with much of the recent coverage of the Type 45 destroyers, which in many ways is emblematic of the challenges we face more widely.

This was the first new destroyer type in over thirty years. Almost every system on board was designed from scratch. In the end, the power and propulsion system fell short of what we hoped, but the air defence system turned out to exceed all expectations.

It's not ideal, but the money is now in place to put it right. Had the problem been the other way around, it would have been altogether more difficult to fix.

But the real truth about the Type 45 is to be found not in the pages of

newspapers but at the sharp end of operations.

Last year, HMS Defender spent over 100 days protecting US and French carrier groups in the Middle East without losing a single day of tasking to machinery defects.

Meanwhile, following attacks on coalition vessels by Houthi rebels, HMS Daring was quietly deployed to the coast of Yemen.

Her ship's company spent 39 days in Defence Watches and over 97 hours at Action Stations as they accompanied 650,000 tonnes of coalition shipping through the Bab-el-Mandeb strait at the height of the threat.

This kind of mission – in this kind of environment – is precisely that for which the Type 45 was conceived.

Where it matters most, the Type 45 has proved itself to be one of the most capable air defence destroyers in the world, and the escort of choice for our most important, and demanding, coalition partners.

We demand the best from our people and equipment and, in doing so, the challenges we face are those of a first rate Navy.

The same is true across the board.

The financial constraints we face are shared across the public sector, and the scrutiny, regulation and efficiency challenges by our partner navies.

Our most pressing manpower shortfalls are not unique to the Royal Navy either – many of the same issues apply to other technology-dependent organisations, and we are working with industry to bring forward the next generation of engineers to meet both our needs.

Yet despite these challenges, the Royal Navy retains a position of global leadership, as evidenced by the international success of FOST and BRNC, and our permanent leadership roles in NATO and the Middle East.

I was in Manila in the autumn to represent CDS at a US PACOM-sponsored conference of military leaders from the Indo-Asia-Pacific region. It was apparent that many of the most significant security issues in that part of the world are maritime in character, and our friends want to work with and learn from the Royal Navy – indeed, last year I signed a historic agreement for closer cooperation with the Japanese Navy.

So the Royal Navy still sets the international maritime standard and the demand is growing. This, more than anything else, is the measure of the kind of Navy we are.

Of course I recognise we have challenges. Much of my time is spent working with Ministers, the Head Office and my fellow Chiefs to put them right. But everything is relative, and my job is to lead the Navy to make the most of the resources we have – and the significant investment coming our way – in order to be the best Navy we can. I am grateful for the support, the

leadership and the commitment of my top team and Navy Board colleagues here tonight.

There's a lot of difficult work involved, but our efforts now will shape the Navy – and the UK's place in the world – for decades to come.

So as we grip these challenges, it's critical that we don't sell ourselves short, or lose our long term focus.

Because the single most important factor in our success is belief: our people need to believe in the Navy's future in order to believe in their own future within the Service.

But we can't do it alone. The Navy Board and I need you – our friends and advocates – right behind us.

Opportunity

In drawing to a close, let me add a final, personal, perspective.

The 35th anniversary of the Falklands Conflict is now just a few weeks away.

As the senior serving veteran, I am looking forward to playing my part to ensure the contribution, and the sacrifice, of all those involved in that extraordinary endeavour is recognised.

Today, we rightly marvel at the audacity of our accomplishment in that campaign, so far from home.

Yet, as many of you well know, the early 1980s was far from a happy time for the Royal Navy in capability terms.

The submarine force was growing but everything else was either shrinking or, in the case of our amphibious capability, about to go altogether.

That included my own ship, HMS Fearless.

So if you'd told 21-year-old Acting Sub Lt Philip Jones that in 35 years' time he would be leading the Royal Navy as it renewed the nuclear deterrent, commissioned two 65,000 tonne strike carriers and fifth generation fighters, reopened a naval base East of Suez, with a construction programme for submarines and frigates stretching far into the future, I'm not sure he would've believed you...but he would probably have been quite pleased.

Yet those are the hard facts of where we are today.

And the impending arrival of the Queen Elizabeth-class carriers is just the beginning.

Last December, the Prime Minister stood on the deck of HMS Ocean and told the assembled audience that the Royal Navy was central to her vision for Britain to forge a new positive, confident role for our country on the global stage.

The Government has stated – repeatedly – its intention to increase the

overall size of the Navy by the 2030s, and now the Type 31e programme is in train to do just that.

So, the vision for the Navy is clear; the equipment is on its way; and the possibilities are growing – what is required now is the sustained focus and effort to reach out and grasp the opportunity.

In short, I cannot remember a time when the Royal Navy has been more relevant to the UK's security challenges, or more important to our global ambitions.

I'm not alone – people are listening – and the real scandal would be if we allowed this precious opportunity to slip through our fingers.

So we mustn't be distracted from our course or dissuaded in our efforts.

We must be guided by the ambition that has been set for the Navy, and judged by our achievements on operations.

I am convinced that if we do these things, and do them well, then we cannot fail.

Thank you.

[Press release: Planned roadworks in the North East: summary for Monday 6 to Sunday 12 February 2017](#)

The following summary of planned new and ongoing road improvements over the coming week is correct as of Friday 3 February but could be subject to change due to weather conditions or unforeseen circumstances. All our improvement work is carried out with the aim of causing as little disruption as possible.

A1 junction 56 Barton to junction 51 Leeming Bar

There will be phases of overnight lane closures and full carriageway closures while work takes place to upgrade the road to motorway standards.

There will also be narrow lanes and a 50mph speed restriction 24 hours a day. From Monday 6 to Thursday 9 February there will be a closure north and southbound at Scotch Corner with traffic being diverted up and over the interchange; there will also be a partial closure of Scotch Corner roundabout and a closure of the southbound exit slip road at junction 51.

Then on Friday 10 February there will be a closure of the southbound entry slip, a partial closure of Scotch Corner roundabout and a closure of the

southbound exit slip road at Junction 51. Then on Sunday 12 February the southbound entry slip road at Scotch Corner will be closed. All closures will take place between 8pm and 6am.

A1 Blaydon Haugh Viaduct, junction 73 to junction 74, Newcastle upon Tyne

There is a 50mph limit in operation over Blaydon Haugh Viaduct due to the installation of temporary plates over defective viaduct joints. From Monday 6 to Sunday 12 February there will be a carriageway closure southbound. All these closures will take place between 8pm and 6am with a diversion in place.

A1 / A1M Junction 64 to junction 67, Gateshead

There will be various lane and carriageway closures north and southbound for structural repairs, commencing on Wednesday 18 January until the end of February. On Saturday 11 February there will be a carriageway closure north and southbound between junction 65 and junction 66. This will take place between 8pm and 6am with diversions in place.

A1 Morpeth, Northumberland

There will be work ongoing until spring 2017 for the construction of a bypass. There will be various phases of daytime and night time lane and carriageway closures, with narrow lanes and a 40mph speed restriction in place. On Monday 6 February there will be a carriageway closure northbound, on Tuesday 7 and Wednesday 8 February there will be a carriageway closure north and southbound, and from Thursday 9 to Saturday 11 February there will be a carriageway closure southbound. All these closures will take place between 8pm and 6am with diversions in place. There will also be a 24 hour lane closure on the A66 eastbound between Melsonby and Scotch Corner, taking place until the beginning of April.

A1 Haggerston, Northumberland

There will be convoy working in place north and southbound for resurfacing work. This will take place until the beginning of March between 8am and 4.30pm.

A1 Wandyław to Warrenford, Northumberland

There will be traffic signals in place north and southbound for survey work. This will take place until Thursday 23 February between 8pm and 6am.

A1 Brownieside, Northumberland

There will be lane closure southbound for survey work. This will take place on Monday 6 and Tuesday 7 February between 8.30am and 4pm.

A1 West Moor, Northumberland

There will be a lane closure northbound for survey work. This will take place on Wednesday 8 February between 8.30am and 4pm.

A19 Silverlink, North Tyneside

There will be a 24 hour 30mph speed restriction with narrow lanes for interchange improvement work. The A1058 Coast Road will be closed with a diversion down and under the junction on Monday 6 to Wednesday 8 February 9.30am until 3.30pm.

A19/A66

The northbound A19 to A66 eastbound to westbound slip roads will be closed for routine maintenance work from Monday 6 February to Tuesday 7 February. The westbound A66 to the A19 southbound slip road will be closed Wednesday 8 February to Thursday 9 February. The closures are between 8pm and 6am.

A66 Long Newton, Stockton on Tees

There will be 24 hour traffic signals in operation on the slip road and interchange for construction work. This will take place until the end of February 2017.

[Press release: Prisons minister visits staff at HMP YO1 Winchester to hear concerns from the frontline](#)

- part of an ongoing tour of prisons to get to the heart of the daily challenges staff face
- Minister Gyimah thanks staff at Winchester for their vital work in delivering major reforms to improve safety and reduce reoffending
- follows £100 million investment in 2,500 extra officers across the

estate and specific funding at HMP YOI Winchester to help give offenders the skills to find employment on release

Prisons Minister Sam Gyimah has paid tribute to the vital work of the Governor and staff at HMP YOI Winchester in part of a nationwide tour of prisons to hear concerns from staff on the frontline.

The visit comes as Ministers embark on wholesale reforms to the prison system – including an additional £100 million to bolster frontline staff by 2,500 and a major package of safety measures. Winchester has been allocated an additional £584,000 of funding to help tackle the rise in drugs, reduce violence and improve safety.

HMP YOI Winchester is also building a new industries and education workshop, which will help give prisoners on-the-job skills to prepare them for finding work on release.

Training schemes such as these provide valuable vocational work for offenders and can help to break the cycle of re-offending which costs society £15 billion a year.

Today (3 February 2017) the Prisons Minister sat down with the Governor and prison officers at Winchester to hear first-hand the challenges they face and how the reforms and increased investment is helping.

Speaking after the visit, Prisons Minister Gyimah said:

Prison officers at HMP YOI Winchester do a challenging and often dangerous job and provide support for a range of offenders.

I came to Winchester to thank the staff for their vital work in helping turn prisoners' lives around. Schemes to prepare prisoners for employment on the outside are exactly what we want to see across the estate as we embark upon the biggest prisons overhaul in a generation.

"I want to see all prisons becoming places of hard work and discipline where offenders are given the help they need to turn their lives around.

We are investing £100 million to boost frontline prison staff by 2,500 to improve safety and are already carrying out a comprehensive review of our probation reforms to improve outcomes for offenders and communities.

The tour of the prison followed a visit to see the work of probation staff at the Hampshire & Isle of Wight Community Rehabilitation Company (CRC) and the local National Probation Service. The CRC provide a Through the Gate service to support prisoners in the run up to, and after, their release from custody.

Staff from the local CRC work with prisoners at Winchester before they are

released into the community to provide a network of specialist support services. This includes providing accommodation, employment and debt advice, support in opening a bank account, as well as offering tailored training and education programmes.

Prisoners released as part of the Through the Gate service are then supervised in the community by HIOW CRC, where they are offered a range of support to help their resettlement into the community and reduce reoffending.

Kim Thornden-Edwards, chief of the Hampshire & Isle of Wight Community Rehabilitation Company (HIOW CRC), said:

I am delighted that the Minister took time out of his busy schedule to meet with our staff and people on probation in order to learn more about the service we deliver.

The visit gave the minister the opportunity to see how we work intimately with HMP YOI Winchester to provide a genuinely Through the Gate service, and to also see how we work in partnership with a range of agencies in order to reduce reoffending.

We are committed to supporting people on probation to ensure their rehabilitation and are proud to get the chance to showcase our approach with the minister.

The strong partnerships between staff at HMP YOI Winchester and the local Community Rehabilitation Company represent the wholesale changes that are taking place across the prison system following on from last year's White Paper announcement. This includes giving governors more powers over education, work and health, so they can tailor support to the prisoners in their charge.

The Prison Service is also leading a nationwide recruitment drive to bring in the additional 2,500 prison officers. This week, a new scheme to recruit ex-services personnel into the prison service launched at Newbury Race Course. It will aim to attract the thousands of talented men and women who leave the Armed Forces every year with the right skills, grit and determination to make a real difference to the lives of prisoners. They will use their talent and skills to bolster the frontline and support offenders to turn their backs on crime.

A new, 2 year graduate scheme called Unlocked has also been launched and will see participants complete a Master's degree whilst working on the frontline.

By having more staff on the ground, staff will be better supported to do the job they came into the Prison Service to do, and spend more time reforming offenders.

Press release: UK steps up work to protect women and girls from trafficking and provide winter care for vulnerable refugees

The UK is helping migrants return home rather than risk their lives continuing perilous journeys to Europe, and protecting men, women and children in danger of trafficking and sexual violence, Prime Minister Theresa May announced today.

Speaking at the Valletta summit in Malta, which is focused on tackling the migration crisis, the Prime Minister announced a new package of more than £30 million in UK aid to provide desperately needed assistance to refugees and migrants across Greece, the Balkans, Libya, Egypt, Tunisia, Morocco, Algeria and Sudan.

This will include life-saving supplies for refugees facing freezing conditions across eastern Europe and Greece, such as warm clothing, shelter and medical care. The UK has also set up a special protection fund that will provide care and support to women and girl refugees in the Mediterranean who may be cut off from family and friends, vulnerable and at risk from trafficking, violence and exploitation.

International Development Secretary Priti Patel said:

Global Britain is stepping up its support for the most vulnerable refugees who are at risk and need our help. Conflict, drought and political upheaval have fuelled protracted crises and driven mass migration. We cannot ignore these challenges.

This latest support from the UK will help those who decide they want to return home to do so safely, protect men, women and children from exploitation, and ensure that those caught in freezing conditions get the basic help they need to survive.

The support announced today will be delivered by trusted humanitarian partners such as the UN's refugee agency (UNHCR), the International Organization for Migration (IOM) and the Start NGO network. It will:

- provide 22,400 life-saving relief items including tents, blankets, winter clothes such as hats and gloves and hygiene kits including mother and baby products;
- protect more than 60,000 vulnerable refugees and migrants from physical or mental suffering. This includes emergency medical care including for those rescued at sea, visits to people in detention centres, provision of legal support, and training of frontline workers to better identify,

protect and prevent violence and trafficking of women and girls in camps and in transit;

- allow up to 22,000 people to reunite with family members they have become separated from during their journey, to access legal processes such as registering as refugees, or to return home voluntarily where possible, including with advice, facilitating travel and helping with reintegration on their return;
- help countries that might be able to resettle refugees put the infrastructure and systems in place to do so, potentially including countries in Asia and Latin America, as well as providing advice and support to help governments in countries such as Greece, Egypt and the Balkans better integrate refugees into local communities;
- provide more than 1,500 refugees in Egypt, including those fleeing Syria and other conflicts, with urgent health assistance including medical care for those suffering from malnutrition, exposure, dehydration and other life-threatening conditions as a result of their travel, as well as providing 1,000 educational grants to migrant students making it easier for them to cover the costs of getting back in to school and so encouraging them to settle in Egypt;
- monitor standards and conditions for migrants in detention, including support to the Greek government to improve living conditions in closed camps and conducting visits to 14 detention centres and 5 sea ports in Libya to improve sanitation and hygiene conditions, benefitting 10,000 people;
- fund the running of a newly-established migrant centre in Sudan, replicating a successful model in Niger to provide emergency assistance to migrants in transit and enable voluntary returns home when safe.

In addition to renewed efforts to address the migration of people through Libya, the UK is providing new humanitarian support to people inside the country affected by the conflict. This includes trauma kits and training for frontline medical personnel in medical centres; blankets, mattresses and emergency food aid to those who have been forced to flee their homes by the fighting; as well as supporting the UN to improve the efficiency and co-ordination of its response in Libya by seconding expert staff to support this work.

Notes to editors

1. In addition to this new package of £30.3 million, the UK has set up an £8 million special protection fund to keep women and girl refugees in the Mediterranean region safe from trafficking, violence and exploitation. The humanitarian response inside Libya is a further £2 million, and includes support for the work of the UNHCR and other UN agencies.
2. Overall this brings total UK humanitarian support in response to the Mediterranean migration crisis to more than £100 million since October 2015.
3. In addition to the UK's funding migration for the response in European and North African countries, we have pledged £2.3 billion for the Syria crisis, our largest ever humanitarian response. By focusing support on

meeting basic humanitarian needs in the region as well as providing jobs and education, we are helping Syrians stay in the region and close to their homes.
