

Press release: Defence industry called to tackle enduring challenges

Minister for Defence Procurement Harriett Baldwin launched the Innovation Initiative's £6m Accelerator Enduring Challenge today, seeking to fast-track the innovative ideas which will keep the UK and its Armed Forces safe and secure.

Cutting-edge ideas like the life-saving device being developed by the University of Strathclyde to minimise blood loss in severely injured personnel; and 2iC's state-of-the-art work on secure data exchange between soldiers, vehicles, and bases and between coalition partners and allies. The MOD's investment in such innovative solutions demonstrates how the government is ensuring our Armed Forces have the most effective and innovative capability available.

The £6m Enduring Challenge is run by the MOD's new Defence and Security Accelerator and will fast-track the best ideas by funding their development, matching suppliers with expert Innovation Partners, and boosting supplier access to defence. The competition will run regularly, with up to 12 rounds a year.

Opening the competition in London, Minister for Defence Procurement, Harriett Baldwin, said:

The Accelerator Enduring Challenge is another important step in our Innovation Initiative's aim to transform defence. Backed by a rising defence budget and our £800m Innovation Fund, the Innovation Initiative is transforming Defence's creative culture.

We are challenging academics and businesses of all kinds to innovate, cooperate, and build mutual security and prosperity as the UK develops its ambitious Industrial Strategy to ensure an economy that works for everyone.

The launch event in London brought together researchers, entrepreneurs, innovation centres, small and medium-sized enterprises, the defence industry and international allies to build the collaborative approach which will deliver cutting-edge defence technology.

The Accelerator Enduring Challenge builds on the previous Centre for Defence Enterprise (CDE) Enduring competition by increasing funding and access to government. £6m will be available for the first year of the Enduring Challenge, which includes a second phase of new funding. The first phase will look at ideas in their early stages, while the second phase will nurture promising projects, as well as offering an alternative route for more advanced ideas and technologies.

Acting Head of the Accelerator, Rob Solly, said:

Through the Enduring Challenge we are hoping to reach out to a wide supply base, which can provide us with innovative ideas that challenge our ways of thinking and operating. We will then work with selected suppliers to support them in their development towards market delivery.

The first competition of the Accelerator Enduring Challenge is now open, with a deadline of 5 April 2017 to submit proposals. The competition will then operate on a regular basis with up to 12 rounds per year.

More information is available on the [Accelerator's website](#).

Richard Calvocoressi

Richard Calvocoressi is a Director and Senior Curator of the Gagosian Gallery in London. He was formerly Director of the Henry Moore Foundation (2007-15). From 1987 to 2007 he was Keeper, then Director, of the Scottish National Gallery of Modern Art in Edinburgh. From 1979 to 1987 he was a curator at the Tate Gallery, where he was responsible for building up the collections of pre- and postwar European art. He also organised major exhibitions of Jean Tinguely (1982) and Oskar Kokoschka (1986). In Scotland, he acquired important international collections of dada and surrealist art from the estates of Roland Penrose and Gabrielle Keiller and was instrumental in attracting the Anthony d'Offay gift (Artist Rooms) to Edinburgh and London. Richard Calvocoressi has published on various modern and contemporary artists, including Michael Andrews, Francis Bacon, Georg Baselitz, Reg Butler, Lucian Freud, Anselm Kiefer, Yves Klein, Paul Klee, René Magritte, Lee Miller and Henry Moore. He is an Expert Member of the Comité Magritte and a Trustee of the Art Fund. In 2008, he was awarded a CBE for services to the arts, particularly in Scotland. His term will end on the 12th of November 2020.

Leslie Webster

Former Keeper of the Department of Prehistory and Europe, and senior curator

of the early medieval collections at the British Museum, she specialises particularly in the Anglo-Saxon and Viking period, on which she publishes and lectures widely. Her latest book is Anglo-Saxon Art: a new History (2012). She is currently Honorary Visiting Professor at the Institute of Archaeology, UCL. She co-curated four major exhibitions on early medieval themes at the British Museum, and also co-ordinated a series of exhibitions in five major European museums, as part of the European Science Foundation's Transformation of the Roman World AD 400-900 Project. She has served as a Trustee and committee member on many professional bodies, including the Society of Antiquaries of London, the Royal Archaeological Institute, and the Society for Medieval Archaeology, where she served as President from 2007-10. Other advisory work has included membership of the former English Heritage Museums and Archives Advisory Panel, the British Academy Corpus of Anglo-Saxon Stone Sculpture Committee, and the National Heritage Memorial Fund Advisory Panel. She is actively engaged in the Staffordshire Hoard Research Project, and is co-editor of the forthcoming publication of this major Anglo-Saxon find. Her term will end on the 17th of February 2020.

Appointments to The RCEWA are made by the Secretary of State. Roles are unremunerated.

This reappointment has been made in accordance with the Code of Practice of the Commissioner for Public Appointments. All appointments are made on merit and political activity plays no part in the selection process. However, in accordance with the original Nolan recommendations, there is a requirement for defined political activity in the last five years to be made public. Neither Richard or Leslie have declared any such political activity.

New appointments to the body that oversees the specialist rail police force in Britain.

The body that oversees the specialist rail police force in Britain is to be further strengthened by the appointment of a new deputy chair and 5 new board members, the Department for Transport has announced.

Mark Phillips, who has been a board member of the British Transport Police Authority since 2013, has been appointed as the new deputy chair. He is also currently Chief Executive Officer at the Rail Safety and Standards Board and has previously worked at Network Rail as Regional Director for Anglia and as Deputy Managing Director for the Greater Anglia franchise.

In addition experienced businessman William Gallagher, chartered accountant Shrinivas Honap, experienced strategist Jeremy Mayhew, retired chief constable Martin Richards and human resources expert Beverley Shears have been appointed as new members of the BTPA Board.

Transport Secretary Chris Grayling said:

We are delivering the biggest rail modernisation programme for more than a century to improve services and provide passengers with faster and more comfortable trains. British Transport Police will play a major role in delivering our vision for a growing and sustainable railway. I am confident the newly-refreshed team will provide the strategic direction the force needs to offer even better value to the rail industry and the taxpayer while fighting crime, reducing disruption and keeping the network safe for passengers and rail staff alike.

The new deputy chair took up his role in November 2016 and the new members will be taking up their roles in January 2017.

[News story: UK Space Agency funds satellite solutions for developing countries](#)

The UK Space Agency's International Partnership Programme (IPP), is a five-year, £152 million programme designed to partner UK space expertise with governments and organisations in emerging and developing economies around the world to deliver a sustainable, economic or societal benefit. Satellite data will be used to tackle problems such as flooding, drought, and deforestation.

The 21 chosen projects help provide solutions for local issues in countries across Africa, Asia and Central and South America. They include providing communications in remote areas for education and health provision, improving maritime safety for small fishing vessels in South Africa and Madagascar and reducing illegal logging in Guatemala.

The IPP focuses on using the UK Space sector's research and innovation

strengths to deliver practical and measurable effects to end-users in developing countries. As GCRF forms part of the UK's Official Development Assistance (ODA) ring-fenced budget, the new IPP programme is fully ODA compliant.

Funded from the Department for Business, Energy and Industrial Strategy's Global Challenges Research Fund (GCRF), the IPP forms part of the UK's Official Development Assistance (ODA) ring-fenced budget. The projects underwent a rigorous selection process to ensure that they met strict requirements for ODA and UN sustainability goals. The UK Space Agency partially funds IPP projects with a proportion of the cost shared by the programme applicants to ensure cost effectiveness and value for money.

The IPP will make a second call for applications later this year, with an opportunity for new projects to secure funding.

Case study: Ecometrica, Edinburgh

Forests2020

Grant: £14.3 million Target country: Indonesia, Brazil, Mexico, Colombia, Ghana and Kenya

This project addresses critical gaps in current forest monitoring systems by providing a sustained and effective forest monitoring system capable of measuring forest change and providing information on the risks and drivers of forest loss. The project focusses on Indonesia, Brazil, Mexico, Colombia, Ghana and Kenya. It will use publically available Earth Observation optical data and commercial LIDAR/radar products as well as set up in-country capacity building EO monitoring stations.

Case study: exactEarth Europe Ltd (eEE) Harwell, Oxfordshire

South Africa Safety Initiative for Small vessels Operational Take-Up (OASIS-TU)

Grant: £1.1 million Target country: South Africa, Madagascar Following on from their IPSP project, this project will install 1,500 transponders across the most at-risk artisanal fishing boats in South Africa. exactEarth will use their constellation of 'Automatic Identification System' monitoring satellites to track these boats in partnership with the South African Maritime Safety Authority; and this will ensure a more effective rescue approach for the small boats and reduce the current high loss of life in this sector.

News story: Secretary of State for Culture, Media and Sport appoints new Chair of National Museums Liverpool (NML)

From:

First published:

26 January 2017

Sir David Henshaw has been appointed by the Secretary of State as Chair of NML for a term of four years from the 13 February 2017

Born and educated in Liverpool, Sir David went on to obtain a degree in Public Administration and then a Master's Degree in Social Sciences at the University of Birmingham (INLOGOV).

He has had an extensive career in the public sector with Chief Executive roles at Knowsley Metropolitan Borough Council (1989-1999) and Liverpool City Council (1999-2006). During his time at Liverpool he was part of the core team which secured the successful bid to be European Capital of Culture 2008, managed the Council in developing Liverpool One, and saw Liverpool recognised as Council of the year.

He led a major review of Child Support and the Child Support Agency for central government (2006-2007) and was also involved in the Prime Minister's Delivery Unit Capability Review programme of central government departments.

Sir David has also held a number of senior roles in the NHS. He has held positions as Interim Chair at University Hospitals of Morecombe Bay NHS Foundation Trust (2012-2013), at Dorset Healthcare University NHS Foundation Trust (2013-2014), at St George's University Hospitals NHS Foundation Trust (since 2016). Sir David was Chair of the North West Strategic Health Authority (2006-2011) and has been Chair of Alder Hey Children's NHS Foundation Trust since 2010, leading the Board in the building of the new hospital. He was knighted in 2004 and is an Honorary Fellow of Liverpool John Moores University, a Fellow of Liverpool University, a Fellow of the Royal Society of Arts and an Honorary Doctor at Sheffield Hallam University.

The NML Chair role is not remunerated. This appointment has been made in accordance with the OCPA Code of Practice. It is a requirement of the Code that political activity by those appointed is declared. Sir David has declared no political activity.
