[The Tories are letting young people down but the SNP will continue to lead the way](#)

Last week marked a decade since the SNP government scrapped university tuition fees in Scotland. The SNP's policy of free university education, based on your ability to learn not your ability to pay, has enabled around 270,000 Scottish students to graduate free of charge since 2007.

[Brexit: what happened this week](#)

A lot has happened this week on Brexit: from the Scottish Government introducing a Bill to protect devolution, to the UK government's latest shambolic negotiation efforts.
