Tories Fail Again to Achieve 'Tens Of Thousands' Net Immigration Target

In the year to June 2017, nearly 600,000 immigrants came to the UK resulting in net immigration of 230,000, a fall from the previous year's very high net migration figure. Net migration had been increasing since 2012; the recent fall sees net migration returning to the level last seen in 2014, still way higher than the historical average.
