

Government enforces “restriction-testing declaration” and compulsory testing notice in respect of specified “restricted area” in Pak Suet House, Choi Hung Estate, Wong Tai Sin

The Government yesterday (May 31) exercised the power under the Prevention and Control of Disease (Compulsory Testing for Certain Persons) Regulation (Cap. 599J) to make a “restriction-testing declaration” effective from 6pm yesterday, under which people (hereafter referred to as “persons subject to compulsory testing”) within the specified “restricted area” in Wong Tai Sin (i.e. Pak Suet House, Choi Hung Estate, Wong Tai Sin) were required to stay in their premises and undergo compulsory testing. Persons subject to compulsory testing are required to stay in their premises until all such persons identified in the “restricted area” have undergone testing and the test results are mostly ascertained.

In addition, the Government issued a compulsory testing notice yesterday to any person who had been present at the above building for more than two hours from May 25 to 31, 2022 to undergo compulsory testing on or before June 2, 2022 even if they were not present in the “restricted area” at the time when the declaration took effect. The Government finished the compulsory testing exercise at around 7.30am today (June 1) and is now carrying out enforcement actions in the “restricted area” to verify that all people in the “restricted area” have undergone compulsory testing. The Government will further announce the revocation time of the declaration.

Starting from around 7.30am today, persons in the specified “restricted area” in Wong Tai Sin who have undergone testing and are able to present SMS notifications with negative test results or wear wristbands as proof of having undergone testing may leave the “restricted area” through the designated exit after providing personal information to a prescribed officer.

The Government set up temporary specimen collection stations in the “restricted area” yesterday and requested persons subject to compulsory testing to collect combined nasal and throat swab samples at the stations to undergo a COVID-19 virus test before 11.30pm yesterday. Around 1 480 people within the area had undergone testing, among which one case tested positive was found. The Centre for Health Protection of the Department of Health will arrange to follow up.

Regarding cases tested positive in the specified “restricted area”, the Government has provided additional food packs, health advice for persons tested positive pending admission to hospitals or isolation facilities, disinfection products and surgical masks to these persons and their household members pending follow-up arrangement.

Moreover, the Government also assigned staff to visit around 770 households within the “restricted area”, among which 102 households did not answer the door. The Government will take measures to follow up.

The Government reiterates that enforcement actions will be taken seriously. Any person who fails to present an SMS notification with a test result or wear a wristband as proof of having undergone testing breaches the compulsory testing notice and may be liable to a fine of \$10,000. The person will also be issued with a compulsory testing order, requiring him/her to undergo testing within a specified time frame. Failure to comply with the compulsory testing order or the “restriction-testing declaration” is an offence and the offender may be liable to a fine of level 5 (\$50,000) and imprisonment for six months.

Government follows up on positive results of sewage surveillance and appeals to residents to undergo virus testing

The Government announced today (May 31) that in order to fight the coronavirus epidemic, the Environmental Protection Department and the Drainage Services Department have been collecting sewage samples for virus testing in all districts, and had detected positive results in some areas, indicating that there may be hidden cases in the premises within these areas.

Rapid test

As regards positive sewage testing results with relatively high viral loads in the following areas, the Housing Department and the respective District Offices will commence distributing about 240 000 sets of the COVID-19 rapid antigen test (RAT) kits to residents, cleaning workers and property management staff working in the following areas for them to take the test on their own, in order to help identify infected persons:

- Southern District – Tin Wan Estate, Shek Pai Wan Estate, Hung Fuk Court, Yue Fai Court, Yue Kwong Chuen and residential premises around Hing Wo Street, Ka Wo Street and Tang Fung Street (See Annex)
- Sham Shui Po District – Shek Kip Mei Estate and residential premises around 70A-178 Tai Po Road (See Annex)
- Kwun Tong District – Richland Gardens

Members of the public may refer to (www.coronavirus.gov.hk/rat/eng/rat.html) for enquiries relating to the use of the RAT kits.

When using an RAT kit, please pay attention to and follow the instructions from the manufacturer to perform the test and read the result properly. It is advisable to record the displayed result by taking a photo immediately after reading. Users should wash their hands before and after performing the tests, and avoid placing non-essential items within the specimen collection area. After completing the test, wrap and seal all components of the test kit carefully and dispose of them properly. If the household environment is contaminated during the specimen collecting process, disinfection should be conducted with 1 in 49 diluted bleach solution or 70 per cent alcohol.

People who obtained a positive result through an RAT for the first time can report via the online platform "Declaration System for individuals tested positive for COVID-19 using Rapid Antigen Test" (www.chp.gov.hk/ratp). If individuals encounter difficulties using the online platform, they can call the automated system at 183 6119 to register their identification document and telephone number. The Centre for Health Protection of the Department of Health will contact the relevant person later to finish the report procedure.
