Beijing has started to remove illegal rooms and buildings under the ground of the city's core area. The government has vowed to remove nearly 14,000 square meters of illegal buildings this year.

On Feb. 28, more than 700 illegal rooms under eight residential buildings of the Hepingmen Community in West Chang'an Street have been removed. Nearly 350 people left the illegal buildings.

According to staff, the removing work at Hepingmen Community began early this year.

During the past two months, they have removed 13,862 square meters illegal buildings, 1,157 underground rooms, and helped 2,010 inhabitants find other places to live.

The government plans to rebuild the underground space and construct a range of facilities, such as parking lots to provide more convenience for the nearby residents.
