Press Releases: Designation of Senior Officials From the Democratic Republic of Congo (DRC)

Media Note
Office of the Spokesperson

Washington, DC
June 21, 2018

The Department is announcing the designation of several senior DRC officials, under Section 7031(c) of the Department of State Foreign Operations and Related Programs Appropriations Act, 2018, due to these officials' involvement in significant corruption related to the DRC's electoral process. Further, the Department is taking steps to prevent entry into the United States of certain DRC officials involved in human rights violations.

Section 7031(c) provides that, in cases where the Secretary of State has credible information that foreign officials have been involved in significant corruption or gross violations of human rights, those individuals are ineligible for entry into the United States.

Credible, transparent, and timely elections in December 2018, in which the Congolese people are free to express their views without fear of violence or intimidation, are essential for ensuring a more peaceful and prosperous future for DRC and the region.

Today's actions send a strong signal that the U.S. government is committed to fighting corruption, to supporting credible elections that lead to DRC's first peaceful and democratic transfer of power, and to holding accountable those who are responsible for significant corruption or serious violations of human rights.

Press Releases: Reported Violations of the Southwest Ceasefire

Press Statement
Heather Nauert

Department Spokesperson

Washington, DC
June 21, 2018

The United States remains deeply troubled by reports of increasing Syrian regime operations in southwest Syria within the boundaries of the de-escalation zone negotiated between the United States, Jordan, and the Russian Federation last year and reaffirmed between Presidents Trump and Putin in Da Nang, Vietnam in November. Syrian regime military and militia units, according to our reports, have violated the southwest de-escalation zone and initiated airstrikes, artillery, and rocket attacks.

The United States continues to warn both the Russian government and the Assad regime of the serious repercussions of these violations and demands that Russia restrain pro-regime forces from further actions within the southwest de-escalation zone. During their call this weekend, Secretary Pompeo stressed to Russian Foreign Minister Sergey Lavrov the critical nature of mutual adherence to this arrangement and the unacceptable nature of any unilateral activity by the Assad regime or Russia. The United States expects all parties to respect the ceasefire, protect civilian populations, and avoid broadening of the conflict. We remain committed to maintaining the stability of the southwest de-escalation zone and to the ceasefire underpinning it.
