Press Releases: U.S.-Republic of Korea Energy Security Dialogue

Media Note
Office of the Spokesperson

Washington, DC
June 8, 2018

The U.S. Department of State hosted the fifth U.S.-Republic of Korea (R.O.K.) Energy Security Dialogue in Washington, DC on June 8, 2018. Deputy Assistant Secretary of State for Energy Diplomacy Sandra Oudkirk and Ministry of Foreign Affairs Director-General for Climate Change, Energy, Environment and Scientific Affairs Kwon Sei-joong led the discussions.

Officials from the U.S. Departments of Energy and Commerce participated in the dialogue along with a Korean delegation from the Ministry of Foreign Affairs, the Korea Electric Power Company Research Institute, and the Embassy of the Republic of Korea in Washington, DC.

The discussion reinforced the role energy cooperation plays in strengthening the U.S.-R.O.K. partnership and focused on national energy policies, bilateral energy cooperation, regional energy issues, and areas of mutual cooperation in multilateral fora devoted to energy.

As President Trump highlighted in his visit to the Republic of Korea in November 2017, the U.S.-R.O.K. alliance remains a linchpin for security, stability, and prosperity in the Indo-Pacific. Today's energy dialogue builds on that vision and the strong bilateral cooperation that serves as a foundation for our solid alliance with the R.O.K.

[Press Releases: U.S. Support of Memorandum of Understanding between UNHCR, UNDP, and the Government of Burma to Create the Conditions for the Voluntary Return of Rohingya Refugees from Bangladesh](#)

Press Statement
Heather Nauert

Department Spokesperson

Washington, DC
June 7, 2018

We welcome the signing of a Memorandum of Understanding (MOU) by UNHCR, UNDP, and the Burmese government to support the creation of conditions conducive to

the voluntary, safe, dignified, and sustainable return of Rohingya refugees to Burma, whether to their places of origin or of their choosing.

This is a positive step. We see this MOU as a confidence-building measure that, if effectively implemented, could allow much-needed humanitarian assistance to reach all affected communities and assist Burma in creating the necessary conditions for voluntary return and to support recovery and resilience-based development for the benefit of all communities living in Rakhine State.

We encourage the Burmese government to fulfill its commitment to work with UNHCR and UNDP to implement the recommendations of the Kofi Annan-led Advisory Commission on Rakhine State.
