Press Releases: United States-Israel Diplomatic Efforts Underpin First Israeli Spacecraft Landing on the Moon

Media Note
Office of the Spokesperson

Washington, DC
February 22, 2019

The United States congratulates the Government of Israel and our respective commercial space industries for the historic SpaceX Falcon 9 rocket launch of [SpaceIL's Lunar Lander](#) named Beresheet. The mission [launched yesterday from Cape Canaveral Air Force Station](#), Florida, at 8:45 p.m. EST and will land on the Moon in about two months. The non-profit organization [SpaceIL](#) and Israel Aerospace Industries, with technical support from the Israel Space Agency, funded and built this lander. The mission required governmental authorization and continuing supervision, consistent with obligations set out in the [Outer Space Treaty](#), to which both Israel and the United States are party. The U.S. government, as a responsible space-faring nation and launching state, also commends the U.S. commercial space sector for providing affordable launch services to another closely allied spacefaring nation. In fact, the Google X prize was the primary incentive that persuaded SpaceIL to embark on this endeavor.

We look forward to expanding our partnership in space with Israel as the nation takes on greater responsibilities in the international community of spacefaring nations (as in its recent assumption of the 2nd Vice Chair of the United Nations Committee on the Peaceful Uses of Outer Space). Israel is fostering its own innovative commercial space industry to produce a mission that will make Israel one of only four nations (United States, the former Soviet Union, China, and Israel) to reach the surface of the Moon through a controlled landing. This mission has fostered a partnership between [NASA](#) and the Israel Space Agency and both agencies will share the resulting discoveries with the global scientific community. NASA will contribute to the mission with communications support and observations from its Lunar Reconnaissance Orbiter spacecraft and by providing a laser retroreflector

that will fly onboard the Israeli lander.

Press Releases: Public Designation of, and Visa Restrictions Placed on, Multiple Officials of the Democratic Republic of the Congo Due to Involvement in Significant Corruption, Human Rights Violations or Abuses, or Undermining of Democracy

Media Note
Office of the Spokesperson

Washington, DC
February 22, 2019

The United States stands with the people of the Democratic Republic of Congo (D.R.C.) following that country's historic transfer of power. The elections reflect the desire of the people of the D.R.C. for change and accountable government institutions. However, there are legitimate concerns over the conduct and transparency of the electoral process.

The Secretary of State is publicly designating, due to their involvement in significant corruption relating to the electoral process, the following individuals: Mr. Corneille Nangaa, President of the Democratic Republic of

the Congo's (D.R.C.) National Independent Electoral Commission (CENI); Mr. Norbert Basengezi Katintima, Vice President of CENI; Mr. Marcellin Mukolo Basengezi, Advisor to the President of CENI; Mr. Aubin Minaku Ndjalandjoko, President of the D.R.C.'s National Assembly; and Mr. Benoit Lwamba Bindu, President of the D.R.C.'s Constitutional Court. This public designation is being made under Section 7031(c) of the Department of State, Foreign Operations, and Related Programs Appropriations Act of 2019, (Div. F, P.L. 116-6-).

Section 7031(c) provides that, in cases where the Secretary of State has credible information that officials of foreign governments have been involved in significant corruption or a gross violation of human rights, those individuals and their immediate family members are ineligible for entry into the United States.

The Secretary of State is also imposing visa restrictions on election officials as well as military and government officials believed to be responsible for, complicit in, or to have engaged in human rights violations or abuses or undermining of the democratic process in the D.R.C.

These individuals enriched themselves through corruption, or directed or oversaw violence against people exercising their rights of peaceful assembly and freedom of expression. They operated with impunity at the expense of the Congolese people and showed a blatant disregard for democratic principles and human rights.

The Department of State emphasizes that the actions announced today are specific to certain officials and not directed at the Congolese people or the newly elected government. This decision reflects the Department of State's commitment to working with the new D.R.C. government to realize its expressed commitment to end corruption and strengthen democracy and accountability, and respect for human rights.
