## **Press Releases: Designation of Vessels SHANG YUAN BAO, NEW REGENT, and KUM UN SAN 3**

Press Statement  
Heather Nauert

Department Spokesperson

Washington, DC  
October 26, 2018

---

The United States, along with partners, welcomes the October 16 announcement by the 1718 Committee on UN designations of vessels SHANG YUAN BAO, NEW REGENT, and KUM UN SAN 3 for engaging in UN-prohibited ship-to-ship transfers of refined petroleum to North Korean ships. We call on the 1718 Committee to designate any vessels under consideration that have shown to be involved in ship-to-ship transfers. The UN is designating the ships for a port entry ban and deflagging. This action is necessary as North Korea's illicit shipping activities continue, despite UN prohibitions on ship-to-ship transfers of any goods or items to or from North Korean vessels of any goods or items going to or coming from North Korea.

The United States notes that this action follows recent announcements from Canada, France, Japan, and the United Kingdom regarding monitoring and surveillance activities to detect UN-prohibited illicit North Korean maritime activities, with a particular focus on detecting and disrupting ship-to-ship transfers of refined petroleum to North Korean tankers in the East China Sea. The United States is also releasing imagery that demonstrates the results of this coordinated, multinational initiative, which includes these countries, along with Australia and New Zealand. In support of this initiative, the United States has deployed aircraft and surface vessels to detect and disrupt these activities.

North Korea continues regularly to employ deceptive tactics to evade UN sanctions. North Korea's illicit imports of refined petroleum have substantially breached the UN sanctions cap on refined petroleum by making illicit transfers, and we urge that Member States immediately end all sales of refined petroleum to North Korea. We call on the 1718 Committee to formally recognize this breach.

UN Member States are required to prohibit persons or entities subject to their jurisdiction from engaging in ship-to-ship transfers. The United States will impose sanctions on any individual, entity, or vessel supporting North Korea's illicit activities.

The United States remains committed to achieving the final, fully verified denuclearization of North Korea. The full enforcement of North Korean-related UN Security Council Resolutions is crucial to a successful outcome. The international community must continue to enforce and implement UN Security Council Resolutions until North Korea denuclearizes.
