

# Update on cluster of Influenza A cases in Kowloon Hospital

The following is issued on behalf of the Hospital Authority:

Regarding an earlier announcement on a cluster of patients infected with Influenza A in a male ward of the Department of Psychiatry, the spokesperson for Kowloon Hospital gave the following update today (January 17):

Two more male patients (aged 28 and 47) and one staff member in the ward presented with upper respiratory tract infection symptoms. Clinical tests were arranged and the test results were positive for Influenza A. The patients concerned are being treated under isolation and are in stable condition. The staff member is currently on sick leave.

Admission and visiting have been suspended in the ward concerned. Infection control measures have already been stepped up according to established guidelines. All other patients in the ward are under close surveillance.

The cases have been reported to Hospital Authority Head Office and the Centre for Health Protection for necessary follow-up.
