

[Video: DUS technical examination](#)

In the context of a webinar organised with [Végépolys Valley](#) to explain the European Union's PVR system, the Community Plant Variety Office has produced together with [GEVES](#) a short video explaining the technical examination (DUS) process for candidate varieties of Hydrangea. The video is currently available in French and the full webinar recorded today by Végépolys Valley will be made available on the CPVO website in July.
