

Visit to Baylab

I went to see Baylab, a schools initiative run by Bayer at their Green Park headquarters. The pharmaceutical and agrichemicals business provides up to a day of practical science for schoolchildren and six form students from local schools and Colleges. The participants undertake practical exercises to find out about issues like the role of bees, DNA, enzymes, forensics and cosmetic chemistry. This is a free lab service with workshops geared to the National Curriculum offered to groups from schools.

I thanked the team there for showing me round and for helping encourage young people to study more science and to find it rewarding and interesting.
