

Visit to Bohunt School

On Friday I visited the School. 4 students showed me round, I answered a series of questions from a pupil panel, and had a session with the Headmaster.

I briefly visited a number of spirited and informative lessons and met a series of questions about environmental matters and access to politics for young people.

The School would like to add a Sixth Form to its establishment. I am happy to support that aim, as I agree a Sixth Form can provide academic, sporting and general leadership to a student body
