

Water quality at Shek O Beach improves

Attention TV/radio announcers:

Please broadcast the following as soon as possible:

Here is an item of interest to swimmers.

The Leisure and Cultural Services Department announced today (June 14) that the Environmental Protection Department has classified the water quality at Shek O Beach in Southern District, Hong Kong Island as Grade 2, which means the water quality has improved and the beach is suitable for swimming. The red flag was hoisted at the beach earlier due to the water quality being classified as Grade 4 and unsuitable for swimming.

However, the red flag at the beach is still hoisted due to big waves. Beach-goers are advised not to swim at the beach.
