

Wokingham Council is annoying residents

I am getting complaints about the increases in parking charges, the extension of parking charge hours and the failure to mend potholes quickly. The Council seems to be out to fleece the motorists, make it more difficult to take a car into the town centre and make it more difficult for all those who need their car to get to work, to take children to school, to get to the shops. I have put these points to our Conservative Councillors who are trying to get change of policy from the Council. Residents deserve better.
